hegdedhananjay5@gmail.com · LinkedIn · GitHub

Summary

Software Engineer with hands-on experience developing web applications, REST APIs, authentication systems, and database-driven platforms using Python, SQL, and JavaScript. Built projects involving backend development, real-time monitoring systems, and workflow management applications. Familiar with API testing, debugging, GitHub workflows, and Agile-based development environments with strong problem-solving and learning abilities.

Technical Skills

- **Languages:** Python, SQL, JavaScript
- **Backend Technologies:** FastAPI, REST APIs, SQLAlchemy, Pydantic, JWT Authentication
- **Frontend Technologies:** HTML, CSS, Bootstrap, ReactJs
- **Databases:** SQLite, MySQL
- **Testing & API Tools:** API Testing, Swagger/OpenAPI, Postman, Debugging
- **Tools & Platforms:** Git, GitHub, Linux, PyCharm
- **Core Concepts:** OOP, API Design, CRUD Operations, Data Structures and Algorithms
- **Cloud & DevOps:** Docker (Basic), AWS Fundamentals

Projects

HireSense AI: Resume Analyzer and ATS Scoring Platform

GitHub

- Built a FastAPI and Bootstrap-based resume analyzer to compare resumes with job descriptions
- Implemented PDF/DOCX parsing using PyMuPDF and python-docx for resume text extraction
- Developed ATS-style scoring to identify matched skills, missing skills, score labels, and recommendations
- Added SQLite-based analysis history with REST APIs for create, view, and delete operations

TaskFlow: Task Management Backend System

GitHub

- Developed backend REST APIs using FastAPI for task creation, management, and user workflows
- Implemented JWT-based authentication and role-based access control for secure API access
- Designed modular backend architecture using FastAPI, SQLAlchemy, and SQLite with CRUD APIs and authentication workflows
- Performed API validation and endpoint testing using Swagger/OpenAPI and Postman

FaceFocus: Real-Time Computer Vision Monitoring System

- Built a real-time monitoring application using Python and OpenCV for face detection and live video analysis
- Developed continuous frame-processing workflows for real-time monitoring and alert-based tracking
- Debugged performance bottlenecks to improve application responsiveness and processing stability

Education

Master of Computer Applications (MCA)

2024 – 2025

JSS Science and Technology University, Mysore

CGPA: 8.3

Bachelor of Computer Applications (BCA)

2020 – 2023

NIE First Grade College, Mysore

CGPA: 7.8

Certifications

- Agile Software Engineering Simulation – JPMorgan Chase & Co.
- Data Analytics Job Simulation – Deloitte (Forage)
- AI for Beginners – HP LIFE
